

## Summary

The following is a list of the updates that Sensus has tested and approved to operate with our software running on Microsoft Windows Server.

### Microsoft Windows Server 2022

Date	Title	Description	RNI Version
04/09/2024	<a href="#">Security Update for SQL Server 2022 RTM GDR (KB5035432)</a>	Security issues have been identified in the SQL Server 2022 RTM GDR that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
07/09/2024	<a href="#">Security Update for SQL Server 2022 RTM GDR (KB5040936)</a>	Security issues have been identified in the SQL Server 2022 RTM GDR that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
07/23/2024	<a href="#">SQL Server 2022 RTM Cumulative Update (CU) 14 KB5038325</a>	CU14 for SQL Server 2022 RTM upgraded all SQL Server 2022 RTM instances and components installed through the SQL Server setup. CU14 can upgrade all editions and servicing levels of SQL Server 2022 RTM to the CU14 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update ( <a href="https://support.microsoft.com/kb/957826">https://support.microsoft.com/kb/957826</a> ). To learn more about SQL Server 2022 RTM CU14, please visit the Microsoft Support ( <a href="https://support.microsoft.com">https://support.microsoft.com</a> ) Knowledge Base article KB5038325.	v4.16
09/10/2024	<a href="#">Security Update for SQL Server 2022 RTM GDR (KB5042211)</a>	Security issues have been identified in the SQL Server 2022 RTM GDR that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
09/10/2024	<a href="#">Security Update for SQL Server 2022 RTM CU (KB5042578)</a>	Security issues have been identified in the SQL Server 2022 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16

09/10/2024	<a href="#">2024-09 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5042881)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
09/25/2024	<a href="#">SQL Server 2022 RTM Cumulative Update (CU) 15 KB5041321</a>	CU15 for SQL Server 2022 RTM upgraded all SQL Server 2022 RTM instances and components installed through the SQL Server setup. CU15 can upgrade all editions and servicing levels of SQL Server 2022 RTM to the CU15 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest Cumulative Update ( <a href="https://support.microsoft.com/kb/957826">https://support.microsoft.com/kb/957826</a> ). To learn more about SQL Server 2022 RTM CU15, please visit the Microsoft Support ( <a href="https://support.microsoft.com">https://support.microsoft.com</a> ) Knowledge Base article KB5041321.	v4.16
10/08/2024	<a href="#">Security Update for SQL Server 2022 RTM CU (KB5046059)</a>	Security issues have been identified in the SQL Server 2022 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
10/08/2024	<a href="#">2024-10 Cumulative Update for .NET Framework 3.5, 4.8 and 4.8.1 for Microsoft server operating system version 21H2 for x64 (KB5044099)</a>	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.16
10/08/2024	<a href="#">Security Update for SQL Server 2022 RTM GDR (KB5046057)</a>	Security issues have been identified in the SQL Server 2022 RTM GDR that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
10/08/2024	<a href="#">2024-10 Cumulative</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this	v4.16

	<a href="#">Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5044281)</a>	update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	
11/12/2024	<a href="#">Security Update for SQL Server 2022 RTM CU (KB5046862)</a>	Security issues have been identified in the SQL Server 2022 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
11/12/2024	<a href="#">2024-11 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5046616)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
11/12/2024	<a href="#">Security Update for SQL Server 2022 RTM GDR (KB5046861)</a>	Security issues have been identified in the SQL Server 2022 RTM GDR that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
11/12/2024	<a href="#">2024-11 Cumulative Update for .NET Framework 3.5, 4.8 and 4.8.1 for Microsoft server operating system version 21H2 for x64 (KB5046547)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
11/14/2024	<a href="#">SQL Server 2022 RTM Cumulative Update (CU) 16 KB5048033</a>	CU16 for SQL Server 2022 RTM upgraded all SQL Server 2022 RTM instances and components installed through the SQL Server setup. CU16 can upgrade all editions and servicing levels of SQL Server 2022 RTM to the CU16 level. For customers in need of additional installation options, please visit the Microsoft Download Center to download the latest	v4.16

		Cumulative Update ( <a href="https://support.microsoft.com/kb/957826">https://support.microsoft.com/kb/957826</a> ). To learn more about SQL Server 2022 RTM CU16, please visit the Microsoft Support ( <a href="https://support.microsoft.com">https://support.microsoft.com</a> ) Knowledge Base article KB5048033.	
12/10/2024	<a href="#">2024-12 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5048654)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
01/14/2025	<a href="#">2025-01 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5049983)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
01/14/2025	<a href="#">2025-01 Cumulative Update for .NET Framework 3.5, 4.8 and 4.8.1 for Microsoft server operating system version 21H2 for x64 (KB5050187)</a>	A security issue has been identified in a Microsoft software product that could affect your system. You can help protect your system by installing this update from Microsoft. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article. After you install this update, you may have to restart your system.	v4.16
02/11/2025	<a href="#">2025-02 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5051979)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
03/11/2025	<a href="#">2025-03 Cumulative Update for</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base	v4.16

	<a href="#">Microsoft server operating system version 21H2 for x64-based Systems (KB5053603)</a>	article for more information. After you install this item, you may have to restart your computer.	
04/08/2025	<a href="#">2025-04 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5055526)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
04/08/2025	<a href="#">2025-04 Cumulative Update for .NET Framework 3.5, 4.8 and 4.8.1 for Microsoft server operating system version 21H2 for x64 (KB5055688)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
05/13/2025	<a href="#">2025-05 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5058385)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
06/10/2025	<a href="#">2025-06 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5060526)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
07/08/2025	<a href="#">2025-07 Cumulative</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this	v4.16

	<a href="#">Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5062572)</a>	update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	
07/08/2025	<a href="#">Security Update for SQL Server 2022 RTM CU (KB5058721)</a>	Security issues have been identified in the SQL Server 2022 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
07/08/2025	<a href="#">2025-07 Cumulative Update for .NET Framework 3.5, 4.8 and 4.8.1 for Microsoft server operating system version 21H2 for x64 (KB5062159)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
08/12/2025	<a href="#">2025-08 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5063880)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
08/12/2025	<a href="#">Security Update for SQL Server 2022 RTM CU (KB5063814)</a>	Security issues have been identified in the SQL Server 2022 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
09/09/2025	<a href="#">2025-09 Cumulative Update for .NET Framework 3.5, 4.8 and 4.8.1 for Microsoft server operating system</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16

	<a href="#">version 21H2 for x64 (KB5065962)</a>		
09/09/2025	<a href="#">2025-09 Cumulative Update for Microsoft server operating system version 21H2 for x64-based Systems (KB5065432)</a>	Install this update to resolve issues in Windows. For a complete listing of the issues that are included in this update, see the associated Microsoft Knowledge Base article for more information. After you install this item, you may have to restart your computer.	v4.16
09/09/2025	<a href="#">Security Update for SQL Server 2022 RTM CU (KB5065220)</a>	Security issues have been identified in the SQL Server 2022 RTM CU that could allow an attacker to compromise your system and gain control over it. You can help protect your computer by installing this update from Microsoft. After you install this item, you may have to restart your computer.	v4.16
