

Rental Solutions

Communities in need can rely on Xylem

"Xylem has been on the front lines of hurricanes for more than four decades, providing 24/7 emergency response technical support and equipment before, during and after major storm events. When severe weather events like Hurricane Dorian strike, Xylem is prepared to help communities in need. Water challenges take many different forms and the breadth of the Xylem fleet and depth of our expertise is on call for temporary water management or long-term operation."

— Mike Delzingaro, Vice President of Sales, Dewatering Solutions, Xylem

Case Studies

- Temporary bypass provides non-clogging solution for Monroe County lift station system upgrade
- Bypass system at Onondaga County pump station enables completion of vital upgrades
- Temporary bypass helps city of Auburn, New York, divert stream water safely and efficiently

Xylem Technology

Godwin CD150S Dri-Prime Pump

- Applications: construction, industrial and utility dewatering
- Handles solids up to 3 inches in diameter
- Improved hydraulic design increases pump efficiency while reducing vibration by up to 50%

Flygt N-Technology Water & Wastewater Pumps

- Features a non-clog impeller with self-cleaning reliability and sustained hydraulic efficiency to ensure peak performance in challenging stormwater applications
- Available for a broad range of wastewater applications for tough applications such as unscreened sewage, wastewater and sludge
