Full line of lead-free potable
water products

 **Bell & Gossett**
xylem

Bell & Gossett lead-free* potable water products

Introducing a full line of potable drinking water products that aren't just clean – **they're also green.**

Xylem's Bell & Gossett brand is committed to providing water handling products that are efficient, safe, innovative and environmentally responsible. That's why we've expanded our line of lead-free* potable drinking water products. Now our pumps, circulators, flanges, tanks, valves and boosters intended for potable water applications are made of lead-free brass or stainless steel materials. They meet the requirements of California's AB1953 and Vermont's S152 legislation, and exceed current requirements in the other 48 states.

Series NBF
and SSF

Series e-60 pumps

Series e-90 pumps

Diaphragm and
expansion tanks

ecocirc® circulator
with timer

Series 100 and
Series PL

ecocirc and ecocirc+
