

Elevator Sump Pump Kits

OIL SMART - Staying dry and protecting the environment

The Oil Smart kits consist of panel, oil smart switch, liquid smart alarm sensor and pump. The setup allows water to be pumped from elevator sumps and transformer vaults without danger of pumping oil into sewers and waterways.

FEATURES

- Protects environment from hazardous waste
- The solid state device senses between oil and water
- Only operates pump if water is sensed by probes.
Does not operate if oil is sensed by probes.

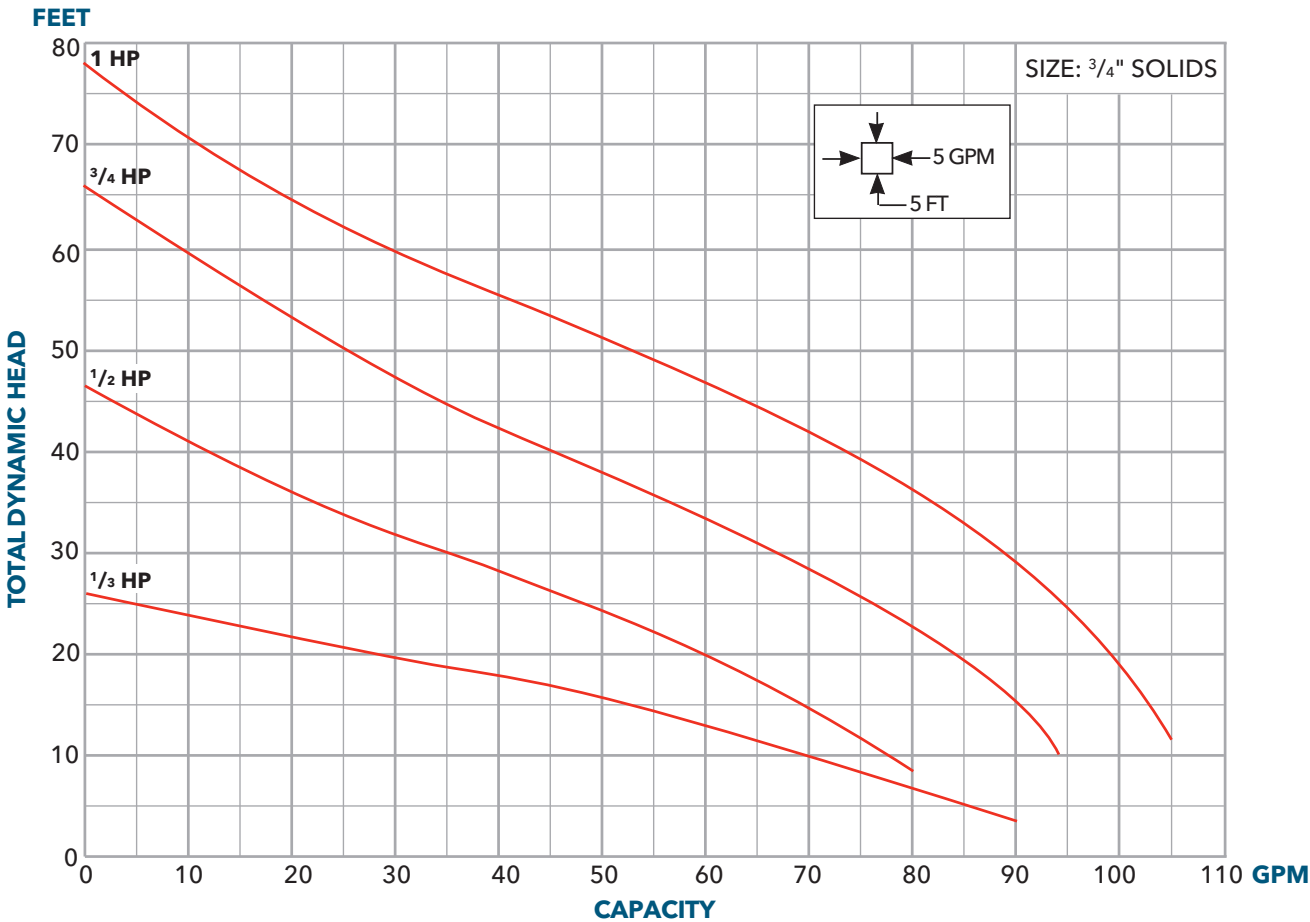

Bell & Gossett
a xylem brand

FEATURES FOR PUMP

- Effluent, 1/3, 1/2, 3/4 and 1 HP, single phase pump
- Hard faced seal
- Cast iron construction
- Effluent, 1/2, 3/4 and 1 HP, three phase pump
