Bell & Gossett

a xylem brand

Bell & Gossett lead-free* potable water products

Introducing a full line of potable drinking water products that aren't just clean – **they're also green.**

Bell & Gossett is committed to providing water handling products that are efficient, safe, innovative and environmentally responsible. That's why we've expanded our line of lead-free* potable drinking water products. Now our pumps, circulators, flanges, tanks, valves and boosters intended for potable water applications are made of lead-free brass or stainless steel materials. They meet the requirements of California's AB1953 and Vermont's S152 legislation, and exceed current requirements in the other 48 states.

Series NBF
and SSF

Series 60

Series 90
