## AC3BMC VALVE KIT

### DESCRIPTION

The Bell & Gossett AC3BMC Valve Kit is a packaged and partially pre-assembled collection of common components required for commissioning a terminal unit. Temperature control valves, piping and coils are not supplied by B&G.

### The AC3BMC Kit consists of:

| Balloon | Part Number | Inlet Connection | Outlet Connection | Description                                                                                                                                                   |
|---------|-------------|------------------|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A       |             |                  |                   | <b>Model UBV</b> - Combination Shut Off Valve and Union End with one Pressure / Temperature Port, Drain Valve, and Tailpiece.                                 |
| B       |             |                  |                   | Connection Size for Coil/Terminal                                                                                                                             |
| C       |             |                  |                   | <b>Model UA</b> - Union Accessory with one Pressure / Temperature Port, Manual Air Vent, Tailpiece and Union End.                                             |
| D       |             |                  |                   | Connection Size for Two-Way Temperature Control Valve (by others)                                                                                             |
| E       |             |                  |                   | <b>Model AC</b> - Circuit Sentry™ - Automatic Flow Limiting, Commissioning and Shut Off Valve with two Pressure / Temperature Ports, Tailpiece and Union End. |
| F       |             |                  |                   | <b>Model MC</b> - Circuit Setter® - Calibrated Balance, Commissioning and Shut Off Valve with two Pressure / Temperature Ports, Tailpiece and Union End.      |
