

4" Submersible Motors

The standard in high quality

Since 2005, Goulds Water Technology (GWT) has offered 4" motors, made by Faradyne Motors. With over 3 million motors installed, our proven record for quality and reliability is also reinforced with GWT's industry leading safety and performance testing standards.

Faradyne also manufactures different motors which Xylem does not purchase. Xylem has ONLY purchased copper wound 4" motors from Faradyne. We are committed to providing the highest quality products in the water industry.
