- The AqWiFi is now installed and can be monitored by the dealer or customer.

ABOUT GOULDS WATER TECHNOLOGY

Goulds Water Technology, a Xylem brand, is one of the world's leading brands in residential and commercial water products. The brand began in 1848 in Seneca Falls, NY, when Seabury S. Gould purchased a pump making business. Today, Xylem's Goulds Water Technology brand is a leader of residential, commercial and agricultural products globally.

For more information on residential water products and applications, visit <http://residential.goulds.com/>

Xylem Product Cybersecurity

Xylem values your system security and the availability of your critical services. For more information on Xylem cybersecurity practices or to contact the cybersecurity team please visit xylem.com/security.

AqWiFi QUICK INSTALL

Mount

- Mount indoors or outdoors in a location with adequate Wi-Fi connection.
- Install the screw and wall anchor from the mounting kit into wall structure. Hang the AqWiFi on the screw and tighten the screw to secure.

Wire

- Turn off power to the controller and wait 5 minutes for hazardous voltage to discharge.
- Remove ½" knockout from controller. Lower left side is recommended.
- Install ½" NPT cable gland in to the enclosure knockout.
- Insert cable from AqWiFi through the cable gland.
- Connect the ends of the cable to the adapter board.
- Plug the adapter board in to the communication port on the controller.
- Tighten the cable gland nut to seal the cable entry (40-50 in-lbs.)

Power

- Follow the START UP PROCEDURE in the controller IOM. Apply power to the controller. The AqWiFi status LED will blink slow red indicating the device is in Offline Mode and ready for commissioning.

SAFETY INSTRUCTIONS: Disconnect and lockout electrical power before installing or servicing any electrical equipment. All electrical work must be performed by a qualified technician.

Connect to WiFi

- Install the AqWiFi app on dealer device.

- Go to Wi-Fi settings and connect to AqWiFi. Enter password Xylem12345.

- Open the AqWiFi app.

- Select Wi-Fi Setup

- Tap "AqWiFi-XXXXXX_Prov"

1. Select WPS Push Button and press Next
2. Follow the instructions on the app

Locate the WPS button on your AP. Click on the "PUSH" button below. Press the WPS button on your AP within 2 minutes.

Please wait while we look for nearby access points

Cancel

PUSH

- a) Press PUSH
- b) Press the WPS push button on the router within 2 minutes.

3. Press OK.

The configuration is complete. Your device will connect to the AP through WPS. You may close this application.

OK

The app returns to the login screen.

For other connection options, see IOM.

Create Dealer Account

NOTE: Skip to ADD DEVICE if dealer account was already created.

- Open the AqWiFi app.

- Select Register

- Select Dealer

- Fill in the account data and tap Submit
