

FEATURES

- Applications include Aeration, Cistern, Irrigation and Effluent.
- Nylon impact and corrosion resistant discharge head and base.
- Pump shell constructed with a press and roll process for better performance.
- 303 stainless steel shaft/coupling provides greater power transfer.
- Pump and motor made of 303 stainless steel for maximum corrosion resistance.
- Powered by CentriPro submersible motors.
- Specially designed 120" SJOW motor leads handle tough effluent applications.

UTILITY PUMP WASTEWATER

GOULDS
WATER TECHNOLOGY

a **xylem** brand

PERFORMANCE AND SPECIFICATIONS

Red Jacket Water Products Utility Pumps are specifically designed to handle your toughest effluent applications. Both the 610 and 518 model utility pumps come equipped with a ½ HP, 115 Volt, CentriPro NEMA standard motor and a removable pump end for quick and easy service. A strainer gives the Red Jacket Utility Pump added protection against blockage. The Utility Pump can handle solids up to ¼ inch in diameter. The model 518 Utility Pump has an optimum performance of 18 gpm, giving you greater flow on more demanding jobs. For lower flow applications, the model 610 Utility Pump has an optimum performance of 10 gpm.

Dimensions (in inches)	
Discharge	1¼" NPT
Pump O.D.	3.75"
W.E. Length	610 - 13.6"
	518 - 11.5"
Motor Length	9.53"
LOA	610 - 23.1"
	518 - 21"

Order No.	HP	Voltage	Phase	Amps	Minimum Circuit Breaker	Cord Length	Cord Type	Maximum Solids Size
