Sounding Better!

HYPACK Support Channel on YouTube

By Rob Baird

Prior to sailing off into the sunset on a survey vessel, HYPACK founder Pat Sanders updated our inventory of tutorial videos for the upcoming HYPACK® 2017 Presentations. Now, these newly updated how-to videos have been uploaded to YouTube to help HYPACK® users help themselves.

You can visit our “HYPACK Support” YouTube Channel at the following link:

https://www.youtube.com/channel/UC6KZKSe1mzr_7Moes2hBNeA

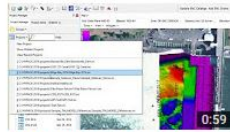

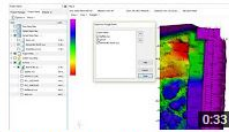

Please consider subscribing to our YouTube Channel to receive updates when new videos are uploaded. You will simply need to click on the red Subscribe button on our Channel page and sign in with your Google Account.

HYPACK Support

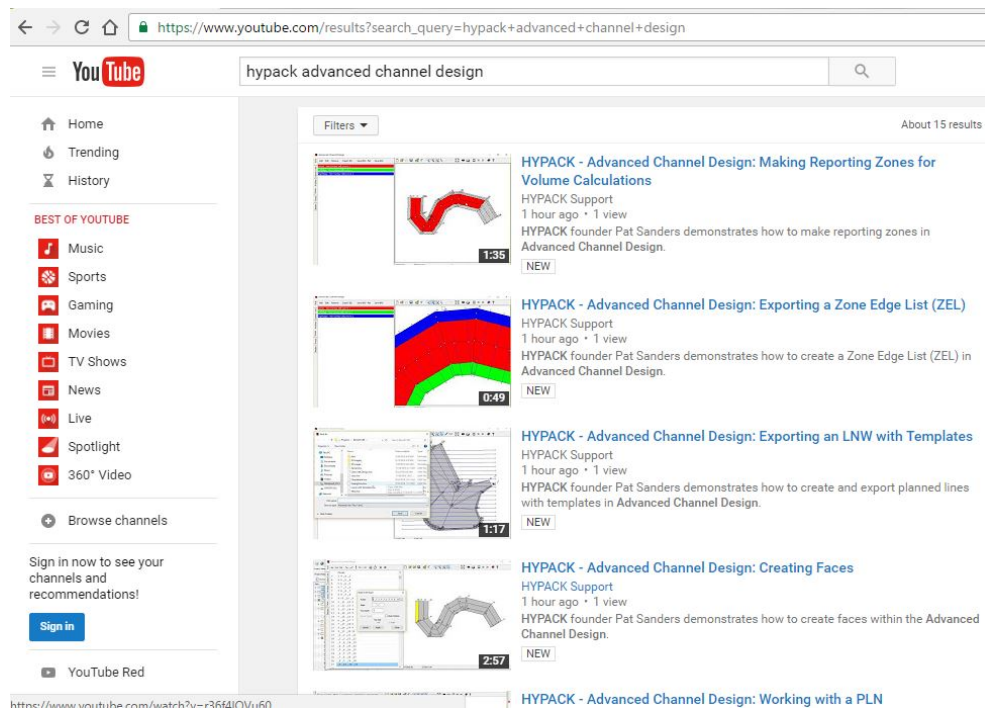

HYPACK - A Xylem Brand, is the industry leader in Hydrographic Surveying and Mapping.

On YouTube, you can also search for these new videos and sort them by using key words, such as the HYPACK® module or program you want more information on (e.g. Advanced Channel Design). By typing “Advanced Channel Design” into the YouTube search bar, the most relevant content appears in the search results, shown below.
