

Introducing the HYPACK® Term License

By Lourdes Evans

The HYPACK® Term License is a flexible and affordable option to access HYPACK® software and all the powerful tools needed to complete your survey project.

It gives you access to the HYPACK® software for a year—the same version you get with a permanent license—but with a flexible, pay-as-you-go approach for a software budget that's easier to manage.

Purchasing a HYPACK® Term License option meets a variety of business needs and budget considerations, such as project-based work, or hiring temporary staff.

Term License customers receive access to the latest software and product enhancements, and basic support. HYPACK® MAX

When the annual Term License expires, the software will stop working. An additional Term License must be purchased to reactivate the HYPACK® software.
