Sounding Better!

Recent Watermark Events

By Christine Roca

On Saturday, April 29th at Chaffinch Island Park in Guilford, CT, over 15 HYPACK employees and family volunteered their time to participate in a beach cleanup organized by the non-profit Connecticut Fund for the Environment / Save the Sound. The mission of this organization is, *"to protect and improve the land, air, and water of Connecticut and Long Island Sound. We use legal and scientific expertise and bring people together to achieve results that benefit our environment for current and future generations."*

For 3 hours, volunteers removed several bags of trash along the Chaffinch Island Park coastline. All the hard work was followed by lunch on the park grounds.

This is the second Save The Sound event that HYPACK employees have taken part in. The first was last year's Hyde Pond Planting. We look forward to partnering with Save The Sound on many future volunteer opportunities.

Because Every Drop Counts

On May 9th HYPACK held its first annual Walk for Water Event. More than 20 HYPACK employees walked 2.5 miles to help raise awareness of the Global Water Crisis. The walk was followed by a pot luck and a 50/50 raffle where \$120 was raised for the Watermark Fund.
