

FREE WEBINAR

You're invited to attend our live webinar to learn how HYPACK® Marine Search and Side Scan software works and can make a difference in police and fire agencies to better their operations.

“Software Making a Difference: Marine Search and Rescue”

Date: November 8th, 2017

Time: 11:00AM – 11:45AM EDT

Space is limited.

Register NOW!

ON NOVEMBER 8TH

Follow Jerry Knisley as he guides you through HYPACK® Marine Search and Side Scan software. This software is dedicated to marine search and recovery operations and allows for real-time mosaicking and targeting of side scan data from side scan sonars. Throughout this webinar you will learn more about data collection, post processing, real world examples and much more.

WEBINAR HIGHLIGHTS

- Using the Real-Time Mosaic feature to ensure 100% coverage is achieved.
- Real-Time Target Investigation and Location.
- Digitizing the bottom trace in post-processing to better mosaic the data.
- Side scan data collection within the standard HYPACK® software vs collecting data in the Marine Search package.
- Examples from a local Fire Department and how they employ side scan.
