HYPACK 2020 Training Event Videos Now Available on YouTube

By Rob Baird

The recent HYPACK 2020 Training Event in Jacksonville, Florida included over 40 hours of HYPACK seminars, led by HYPACK's finest hydrographic software experts. The recorded videos from those sessions are now available on the [HYPACK YouTube channel](#).

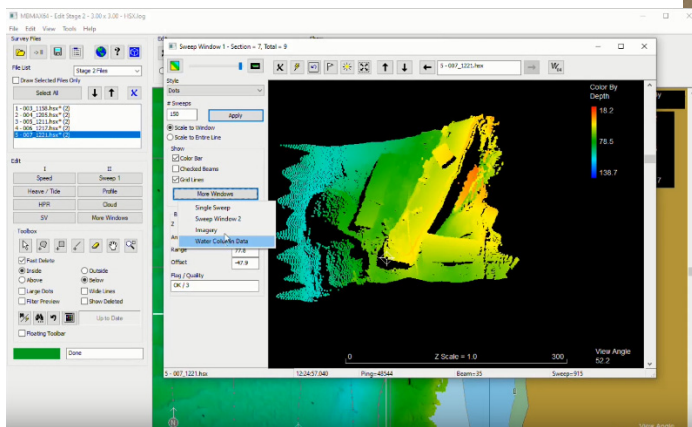

Here are a few highlights from the HYPACK 2020 Training Event:

HYPACK Director of Operations, Gerd Glang addressed the attendees to officially kick off the event. [Check out his opening remarks and see What's New in HYPACK 2020.](#)

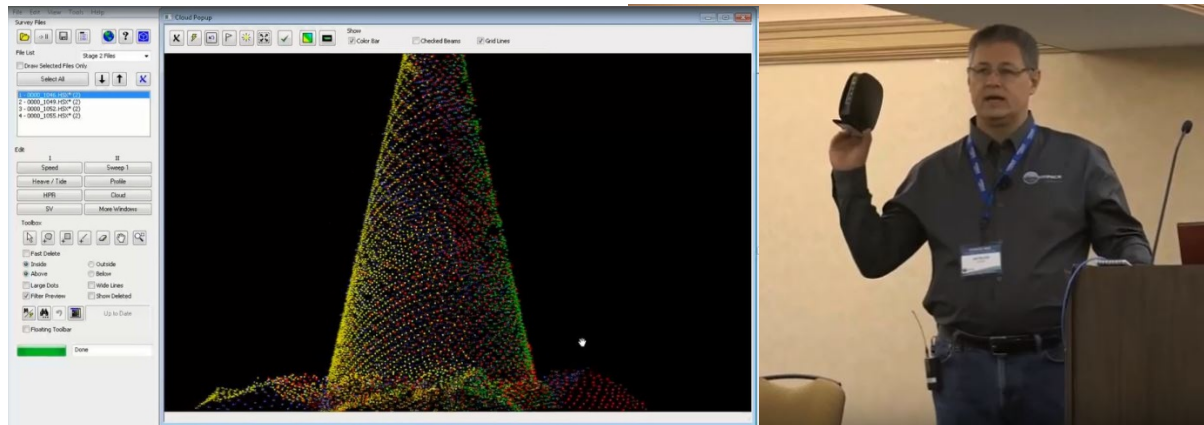

HYPACK Programmer, Mike Kalmbach demonstrated the use of [MBMax64](#) to process multibeam sonar data.
