

ON-DEMAND WEBINAR

New Reporting Tools in DREDGEPACK®

Learn how these improvements are designed to make analyzing dredging information faster and more efficient!

ON-DEMAND WEBINAR

Discover the new reporting tools in DREDGEPACK® Software

In this recorded session, Cristhian Bermudez and Thelen Pumford from the HYPACK Technical Support Team guide you through the new reporting tools in DREDGEPACK®. These features are designed to make dredging data analysis faster, more accurate, and easier than ever. Follow along as they demonstrate the powerful new capabilities that can enhance your dredging projects.

WHAT YOU WILL LEARN

- **Cloud Monitoring** – Access real-time data from anywhere.
- **Downtime Tracking** – Digital Leverlog – Quickly identify and address operational delays.
- **Custom Reports** – Tailor reporting to your project's specific needs.
- **Efficient Reporting** – Save time with streamlined processes.
- **Data-Driven Decision Making** – Make informed choices backed by accurate data.

If you have any questions about how DREDGEPACK® can support your next project, feel free to reach out to us at sales@hypack.com.
