HYPACK 2018 Training Event Presentations to be Available for Archived Viewing

By Rob Baird

The HYPACK 2018 Training Event was held January 17-19, 2018 at The Westin Savannah Harbor Golf Resort and Spa in Savannah, Georgia. The 315 attendees were treated to nearly 40 hours of training seminars during the three days in beautiful and historic Savannah. A packed exhibit hall showcased the wares of leading hydrographic manufacturers, providing an optimal platform for HYPACK® software, hardware, and end users.

HYPACK General Manager, Harold Orlinsky, welcomed all HYPACK 2018 participants to Savannah on Wednesday, January 17th. As HYPACK 2018 was the 25th Annual HYPACK Training Event, Harold provided a contrasting look of our first annual festivities (1994) vs. now. He also premiered the latest and greatest software developments from our upcoming HYPACK® 2018 software in the opening “What’s New in HYPACK 2018?”.

The “What’s New in HYPACK 2018?” session and 10 other training seminars in the main ballroom were recorded for archived viewing, as were the training sessions in the two smaller breakout rooms. To watch any of the seminars from HYPACK 2018, go to our USTREAM Channel (<http://www.ustream.tv/channel/hypack>).

Not all training sessions will be available at the time of publication, so check back if the training you are looking for is not yet online. In the meantime, you can watch seminars from our HYPACK 2016 and 2017 Training Events at the same USTREAM link... Happy watching and stay tuned for more videos!
