

# Safety Data Sheet

According to EC Directive 91/155/EEC

Date of issue:  
Supersedes edition of

08.11.2005  
15.01.2004

## 1. Identification of the substance/preparation and of the company/undertaking

### Identification of the product

Order-No. 250 308  
Product name: WTW-PL cell test COD C2/25 250308  
Küvetten-Reagenz

### Use of the substance/preparation

Reagent for analysis

### Company/undertaking identification

Company: WTW \* D-82362 Weilheim \* Tel. 0881 / 183-0  
FAX 0881 / 1748  
Emergency telephone No.: +49 (0)6151/722440 \* Fax: +49 (0)6151/72-7780

## 2. Composition/information on ingredients

Sulfuric acid solution.

The percent content of the chromium compound mentioned below refers to the amount of the pure chromium therein.

The percent content of the mercury compound mentioned below refers to the amount of the pure mercury therein.

### Hazardous ingredients:

#### Name according to EC Directives:

| CAS-No.              | EC No.    | EC-Index-No. | Classification                                                                                                                                 | Content:         |
|----------------------|-----------|--------------|------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| potassium dichromate |           |              |                                                                                                                                                |                  |

(Full text of R-Phrases in heading 16)

# Merck Safety Data Sheet

According to EC Directive 91/155/EEC

|               |                                                       |
|---------------|-------------------------------------------------------|
| Order-No.     | 250 308                                               |
| Product name: | WTW-PL cell test COD C2/25 250308<br>Küvetten-Reagenz |

---

## 3. Hazards identification

May cause cancer. May cause heritable genetic damage. Also toxic by inhalation, in contact with skin and if swallowed. Danger of cumulative effects. Causes severe burns. May cause sensitization by inhalation and skin contact. Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Restricted to professional users. Attention -  
Avoid exposure - obtain special instructions before use.

---

## 4. First aid measures

First-aid personnel: ensure self-protection!

After inhalation: fresh air.

If breathing stops: immediately apply mechanical ventilation, if necessary oxygen mask.

Immediately call in physician.

After skin contact: wash off with plenty of water. Dab with polyethylene glycol 400.

Immediately remove contaminated clothing. Call in physician.

After eye contact: rinse out with plenty of water with the eyelid held wide open. Immediately call in ophthalmologist.

After swallowing: make the victim drink plenty of water, induce vomiting. Immediately call in physician.

---

## 5. Fire-fighting measures

Suitable extinguishing media:

In adaption to materials stored in the immediate neighbourhood.

Special risks:

Non-combustible. Ambient fire may liberate hazardous vapours. The following may develop in event of fire: sulfur oxides, mercury vapours.

Special protective equipment for fire fighting:

Do not stay in dangerous zone without self-contained breathing apparatus. In order to avoid contact with skin, keep a safety distance and wear suitable protective clothing.

Other information:

Contain escaping vapours with water. Cool container with spray water from a safe distance. Prevent fire-fighting water from entering surface water or groundwater.

---

## 6. Accidental release measures

Person-related precautionary measures:

Avoid substance contact. Do not inhale vapours/aerosols. Ensure supply of fresh air in enclosed rooms.

Environmental-protection measures:

Do not allow to enter sewerage system.

Procedures for cleaning / absorption:

Take up with liquid-absorbent and neutralizing material (e.g. Chemisorb® H<sup>+</sup>, Art. No. 101595). Forward for disposal. Clean up affected area.

# Merck Safety Data Sheet

According to EC Directive 91/155/EEC

Order-No. 250 308  
Product name: WTW-PL cell test COD C2/25 250308  
Küvetten-Reagenz

---

## 7. Handling and storage

### *Handling:*

Notes for safe handling:

Work under hood . Do not inhale substance. Avoid generation of vapours/aerosols.

### *Storage:*

Tightly closed in a well-ventilated place. Accesible only for authorised persons. Storage temperature: no restrictions.

The data apply to the entire pack.

---

## 8. Exposure controls/personal protection

### *Specific control parameter*

EC

|               |                                                                   |
|---------------|-------------------------------------------------------------------|
| Name          | potassium dichromate                                              |
| Carcinogenic  | C 2:should be regarded as if it is carcinogenic to man            |
| mutagenic     | M 2:substance which should be regarded as if mutagenic to man     |
| Fertility     | R(F) 2:should be regarded as if impairing fertility in humans     |
| Embryotoxic   | R(E) 2:should be regarded as if it impaire developmental toxicity |
| Sensitization | Sah Danger of sensitization of the airways and the skin           |

### *Personal protective equipment:*

Protective clothing should be selected specifically for the working place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier.

Respiratory protection: required when vapours/aerosols are generated.

Eye protection: required

Hand protection: In full contact:  
Glove material: viton  
Layer thickness: 0.70 mm  
Breakthrough time: > 480 Min.  
  
In splash contact:  
Glove material: butyl rubber  
Layer thickness: 0.7 mm  
Breakthrough time: > 120 Min.

The protective gloves to be used must comply with the specifications of EC directive 89/686/EEC and the resultant standard EN374, for example KCL 890 Vitoject® (full contact), 898 Butoject® (splash contact).

This recommendation applies only to the product stated in the safety data sheet and supplied by us as well as to the purpose specified by us. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN374 please contact the supplier of CE-approved gloves (e.g. KCL GmbH, D-36124 Eichenzell, Internet: [www.kcl.de](http://www.kcl.de)).

# Merck Safety Data Sheet

According to EC Directive 91/155/EEC

Order-No. 250 308

---

## Industrial hygiene:

Immediately change contaminated clothing. Apply skin- protective barrier cream. Wash hands and face after working with substance. Under no circumstances eat or drink at workplace. Work under hood . Do not inhale substance.

---

## 9. Physical and chemical properties

|                       |                                            |
|-----------------------|--------------------------------------------|
| Form:                 | liquid                                     |
| Colour:               | orange                                     |

| Solubility in water   | (20 °C) soluble (development of heat)      |
| Thermal decomposition | > 338 °C                                   |

---

## 10. Stability and reactivity

### *Conditions to be avoided*

Strong heating.

### *Substances to be avoided*

water, alkali metals, alkali compounds, ammonia, alkaline earth metals, alkaline earth compounds, alkalis, acids, metals, metal alloys, phosphorus oxides, phosphorus, hydrides, halogen-halogen compounds, oxyhalogenic compounds, permanganates, nitrates, carbides, combustible substances, organic solvents, acetylidenes, nitriles, nitrides, organic nitro compounds, anilines, peroxides, picrates, lithium silicide.

### *Hazardous decomposition products*

in the event of fire: See chapter 5.

### *Further information*

has a corrosive effect;  
incompatible with metals, animal/vegetable tissues.  
Hydrogen may form upon contact with metals (danger of explosion!).

---

## 11. Toxicological information

### *Acute toxicity*

Quantitative data on the toxicity of this product are not available.

---

# Merck Safety Data Sheet

According to EC Directive 91/155/EEC

Order-No. 250 308  
Product name: WTW-PL cell test COD C2/25 250308  
Küvetten-Reagenz

---

## *Subacute to chronic toxicity*

Applicable to partial component(s):

Animal experiments performed under conditions comparable with the workplace situation have shown the substance to be carcinogenic.

Based on clear evidence from animal experiments there is a high risk of teratogenic effects.

Pregnant women must not be exposed to the product.

There is sufficient evidence to assume that reproductive performance in man is impaired. These properties have been clearly demonstrated in animal experiments.

A mutagenic effect has been demonstrated in animal studies on mammals, justifying the assumption that exposure of humans to the substance produces hereditary damage.

## *Further toxicological information*

Properties to be expected on the basis of the main component of the preparation:

After inhalation of aerosols: damage to the affected mucous membranes.

After skin contact: severe burns with formation of scabs.

After eye contact: burns, corneal lesions.

After swallowing: severe pain (risk of perforation!), nausea, vomiting and diarrhoea.

After a latency period of several weeks possibly pyloric stenosis.

Applicable to partial component(s):

Danger of skin absorption.

Risk of airways and skin sensitization.

Danger of cumulative effects.

Other notes:

Mercury compounds have a cytotoxic and protoplasmatoxic effect. Intoxication symptoms: acute: contact with eye causes severe lesions. Swallowing and inhalation of dusts damages mucous membranes of gastrointestinal and respiratory tract (metallic taste, nausea, vomiting, abdominal pain, bloody diarrhoea, intestinal burns, glottal oedema, aspiration pneumonia); drop in blood pressure, cardiac dysrhythmia, circulatory collapse, and renal failure; chronic: inflammation of the mouth with loss of teeth and mercurial line. The principal signs manifest themselves in the CNS (impaired speech, vision, hearing, and sensitivity, loss of memory, irritability, hallucinations, delirium inter alia).

Chromium (VI) is highly toxic. It is absorbed via both the lungs as well as the gastrointestinal tract. Being strong oxidants, chromates/ bichromates can cause burns and ulcerations on the skin and mucous membranes and also irritations in the upper respiratory tract. Poor tendency for ulcers to heal following penetration of substance into the wound. In predisposed persons the substance rapidly leads to sensitization and allergic reactions of the respiratory tract (risk of pneumonia!) and damage to nasal mucous membranes (under given circumstances perforation of the septum). After swallowing severe symptoms in the gastrointestinal tract such as bloody diarrhoea, vomiting (aspiration pneumonia!) spasms, circulatory collapse, unconsciousness, formation of methaemoglobin. Absorption may result in hepatic and renal damage. Inhalable chromium(VI) compounds have clearly shown themselves to be carcinogenic in animal experiments. Lethal dose (man): 0.5 g. Antidotes: chelating agents such as EDTA, DMPS (Demaval(R)).

## *Further data*

Further hazardous properties cannot be excluded.

This substance should be handled with particular care.

# Merck Safety Data Sheet

According to EC Directive 91/155/EEC

Order-No. 250 308  
Product name: WTW-PL cell test COD C2/25 250308  
Küvetten-Reagenz

---

## 12. Ecological information

Ecotoxic effects:

Quantitative data on the ecological effect of this product are not available.

Biological effects:

Harmful effect on aquatic organisms. May cause long-term adverse effects in the aquatic environment.

Further ecologic data:

The following applies to sulfuric acid: biological effects: harmful effect on aquatic organisms.

Harmful effect due to pH shift. Toxic effect on fish and algae. Caustic even in diluted form.

Does not cause biological oxygen deficit. Endangers drinking-water supplies if allowed to enter soil and/or waters in large quantities. Neutralization possible in waste water treatment plants.

Daphnia toxicity: Daphnia magna EC<sub>50</sub>: 29 mg/l/24 h (calculated on the pure substance).

The following applies to the water-soluble matter contained in inorganic Hg compounds in general (tested with mercury(II) chloride): Leuciscus idus LC<sub>50</sub>: 0.5 mg/l (48h), Daphnia magna EC<sub>50</sub>: 0.005-3,6 mg/l (48h), Chlorella pyrenoidosa EC<sub>50</sub>: 0.3 mg/l (5h), Pseudomonas fluorescens IC<sub>50</sub>: 0.005 mg/l. The toxicity of mercury(II) ions for water organisms depends on the water hardness [source: IPCS].

The following applies to chromium ions in general: biological effects: fish: toxic from 52 mg/l up; LC<sub>50</sub>: 29 mg/l; algae: toxic from 5 mg/l up; arthropods: Daphnia toxic from 0.32 mg/l up, calculated as sodium chromate.

Do not allow to enter waters, waste water, or soil!

---

## 13. Disposal considerations

*Product:*

Chemicals must be disposed of in compliance with the respective national regulations. Under [www.retrologistik.de](http://www.retrologistik.de) you will find country- and substance-specific information as well as contact partners.

*Packaging:*

Merck product packaging must be disposed of in compliance with the country-specific regulations or must be passed to a packaging return system. Under [www.retrologistik.de](http://www.retrologistik.de) you will find special information on the respective national conditions as well as contact partners.

|          |                                                                                                  |
|----------|--------------------------------------------------------------------------------------------------|
| 8        | Contact with combustible material may cause fire.                                                |
| 21       | Harmful in contact with skin.                                                                    |
| 25       | Toxic if swallowed.                                                                              |
| 26       | Very toxic by inhalation.                                                                        |
| 26/27/28 | Very toxic by inhalation, in contact with skin and if swallowed.                                 |
| 33       | Danger of cumulative effects.                                                                    |
| 34       | Causes burns.                                                                                    |
| 35       | Causes severe burns.                                                                             |
| 42/43    | May cause sensitization by inhalation and skin contact.                                          |
| 45       | May cause cancer.                                                                                |
| 46       | May cause heritable genetic damage.                                                              |
| 48/23    | Toxic: danger of serious damage to health by prolonged exposure through inhalation.              |
| 50/53    | Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment. |
| 60       | May impair fertility.                                                                            |
| 61       | May cause harm to the unborn child.                                                              |

Reduced labelling on the container due to small quantity.

### Reason for alteration

General update.

### Contact for information:

Merck KGaA \* D-64271 Darmstadt \* Tel. 06151/72-6969

---

*The information contained herein is based on the present state of our knowledge. It characterizes the product with regard to the appropriate safety precautions. It does not represent a guarantee of the properties of the product.*

# Safety Data Sheet

According to EC Directive 91/155/EEC

Date of issue:  
Supersedes edition of

07.11.2005  
15.01.2004

---

## 1. Identification of the substance/preparation and of the company/undertaking

### *Identification of the product*

Order-No. 250 308  
Product name: WTW-PL cell test COD C2/25 250308  
Blindwert Simulationsreagenz

### *Use of the substance/preparation*

Reagent for analysis

### *Company/undertaking identification*

Company: WTW \* D-82362 Weilheim \* Tel. 0881 / 183-0  
FAX 0881 / 1748  
Emergency telephone No.: +49 (0)6151/722440 \* Fax: +49 (0)6151/72-7780

---

## 2. Composition/information on ingredients

Aqueous solution of organic compounds.

---

## 3. Hazards identification

No hazardous product as specified in Directive 67/548/EEC.

---

## 4. First aid measures

After inhalation: fresh air.  
After skin contact: wash off with plenty of water. Remove contaminated clothing.  
After eye contact: rinse out with plenty of water with the eyelid held wide open.  
After swallowing: make victim drink plenty of water. Consult doctor if feeling unwell.

---

## 5. Fire-fighting measures

Suitable extinguishing media:  
In adaption to materials stored in the immediate neighbourhood.

Special risks:  
Non-combustible.

---

## 6. Accidental release measures

Person-related precautionary measures:  
Do not inhale vapours/aerosols.

Procedures for cleaning / absorption:  
Take up with liquid-absorbent material (e.g. Chemizorb® ). Forward for disposal. Clean up affected area.

# Merck Safety Data Sheet

According to EC Directive 91/155/EEC

Order-No. 250 308  
Product name: WTW-PL cell test COD C2/25 250308

---

## 7. Handling and storage

### *Handling:*

No further requirements.

### *Storage:*

Tightly closed in a well-ventilated place. Accessible only for authorised persons. Storage temperature: no restrictions.

The data apply to the entire pack.

---

## 8. Exposure controls/personal protection

### *Personal protective equipment:*

Protective clothing should be selected specifically for the working place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier.

Respiratory protection: required when vapours/aerosols are generated.

Eye protection: required

Hand protection: In full contact:  
Glove material: nitrile rubber  
Layer thickness: 0.11 mm  
Breakthrough time: > 480 Min.

In splash contact:  
Glove material: nitrile rubber  
Layer thickness: 0.11 mm  
Breakthrough time: > 480 Min.

The protective gloves to be used must comply with the specifications of EC directive 89/686/EEC and the resultant standard EN374, for example KCL 741 Dermatril® L (full contact), 741 Dermatril® L (splash contact).

This recommendation applies only to the product stated in the safety data sheet and supplied by us as well as to the purpose specified by us. When dissolving in or mixing with other substances and under conditions deviating from those stated in EN374 please contact the supplier of CE-approved gloves (e.g. KCL GmbH, D-36124 Eichenzell, Internet: [www.kcl.de](http://www.kcl.de)).

Industrial hygiene:

Change contaminated clothing. Wash hands after working with substance.

---

## 9. Physical and chemical properties

Form: liquid  
Colour: light blue  
Odour: odourless  
pH value (25 °C) ~ 7  
Melting point not available  
Boiling point not available

## 10. Stability and reactivity

*Conditions to be avoided*  
no information available

*Substances to be avoided*

The generally known reaction partners of water.

*Hazardous decomposition products*

not known to date

---

## 11. Toxicological information

*Acute toxicity*

Quantitative data on the toxicity of this product are not available.

*Further toxicological information*

No toxic effects are to be expected when the product is handled appropriately.

*Further data*

The product should be handled with the care usual when dealing with chemicals.

---

## 12. Ecological information

Ecotoxic effects:

Quantitative data on the ecological effect of this product are not available.

Further ecologic data:

No ecological problems are to be expected when the product is handled and used with due care and attention.

---

## 13. Disposal considerations

*Product:*

Chemicals must be disposed of in compliance with the respective national regulations. Under [www.retrologistik.de](http://www.retrologistik.de) you will find country- and substance-specific information as well as contact partners.
