

Blower/Aeration solutions from a single source. **Next-level rental.**

At Xylem we rent out more than just pumps and treatment systems. We offer world-class expertise to provide you with cost-effective, reliable and innovative full-service solutions for even the most complex applications. Careful preparation makes all the difference:

Emergency Aeration

When breakdown occurs with treatment processes emergency aeration units can provide a quick and reliable solution whilst repairs are completed.

Temporary treatment for plan refurbishment/replacement

When existing plant needs to be replaced rental units provide stop-gap solution enabling the continuation of effective treatment.

Environmental Compliance to meet consent requirements

Discharges often need to be treated to comply to environmental consents. Treatment rental provides a quick and easy option.

the professional pre-assembly of your potable or wastewater rented system by our experts saves you both time and money. Systems and components from Xylem Rental Solutions are always tailor-made to meet your individual requirements.

This makes for increased operational safety and guarantees that the technology always works under optimal conditions. That's what we call **next-level rental.**

Plug & play installation

All Xylem treatment rental units are skid or containerised which enables rapid deployment. Dedicated Rental Operations managers ensure a seamless integration into your system.

Full service and technical support

All rental units are fully supported by our dedicated and fully trained service engineers.

Energy efficient fleet

Our Blower fleet, TurboMAX, deliver ultimate energy efficiency for your wastewater aeration system reducing daily energy consumption by up to 40%.
