

Xylem at a Glance

Xylem is a leading global water technology company committed to developing innovative technology solutions to the world's water challenges. The Company's products and services move, treat, analyze, monitor and return water to the environment in public utility, industrial, residential and commercial building services, and agricultural settings. With its October 2016 acquisition of Sensus, Xylem added smart metering, network technologies and advanced data analytics for water, gas and electric utilities to its portfolio of solutions. We have strong, long-standing relationships with customers who know us for our powerful combination of leading product brands and applications expertise with a strong focus on developing comprehensive, sustainable solutions.

Let's Solve Water

NORTH AMERICA

Nashville Metro Water Services (MWS) Improves Operations

Relying on Sensus, MWS now collects meter data remotely, which saves them \$181,000 per month. With more insight into water consumption, the utility identifies leaks and other issues before they are reflected on customer bills. Plus, technicians no longer face routine discomforts of manually reading meters in the field.

LATIN AMERICA

Honduras City No Longer High and Dry

Through a remarkable engineering feat powered by Goulds Water Technology brand pumps, Xylem helped bring precious water resources to a drought-stricken city in Honduras six miles up a mountain.

EUROPE

Xylem Pumps For Europe's Largest Wastewater Treatment Plant

Europe's largest wastewater treatment plant treats about 1.5 million cubic meters of wastewater in the Paris region every day. In the frame of the modernization of the plant, Paris municipal authority chose Xylem for the supply of more than 90 Flygt pumps, thanks to Xylem expertise and energy efficient technologies.

AFRICA

Xylem's Presence in Africa Flows Strong

Xylem South Africa provides technical design, engineering and aftermarket support and boasts the largest submersible pump rental fleet on the continent with 600 units across Sub-Saharan Africa.

MIDDLE EAST

Xylem Participates in World's Largest Water Reuse Installation

Technology from Xylem's Flygt, Sanitaire and Lowara brands is powering the world's largest water reclamation and reuse center in Kuwait, a desert country where about 75 percent of potable water must be distilled or imported.

ASIA

SMART Tunnel in Kuala Lumpur, Malaysia

Xylem designs pumping solutions for unique dual-function tunnel in Kuala Lumpur. The award winning 'Storm Water Management and Road Tunnel' (SMART) tunnel in the Malaysian capital Kuala Lumpur, that has been successfully diverting flash floods in the city, uses Xylem Flygt brand pumps for transport and dewatering.

AUSTRALIA

Using Stormwater at Sydney Airport

Sydney Airport recently underwent a major infrastructure development project focused on making it more efficient and environmentally friendly. The contractor turned to Xylem and its Flygt, Sanitaire, Wedeco and Lowara brands to provide a new stormwater recycling program intended to save approximately 350 million liters of fresh water per year.

2015 REVENUE*

*Excludes recent acquisitions, including Sensus.

BY THE NUMBERS

- Xylem operates in more than **40 COUNTRIES & 360 LOCATIONS**
- Xylem products are sold in more than **150 COUNTRIES**
- Employees **nearly 16,000**

MARKETS SERVED*

XYLEM WATERMARK

Xylem Watermark is Xylem's corporate citizenship and social investment program. Its mission is to provide and protect safe water resources for communities in need around the world and educate people about water issues.

Provided safe water and sanitation solutions to more than **2.9 million people**

Work with **6 strategic partners** in more than **25 countries** across **5 continents**

More than **500 employees** have volunteered on Xylem Watermark projects in the field

Have responded to more than **25 water-related disasters** with clean water and new water infrastructure
