

Watermark Watershed Bingo Challenge

Let's educate ourselves and others and take action to preserve our precious water resources!

Are you up for the challenge? Grab a trash bag, a shovel, or even your phone, and get started in the 2023 Watermark Watershed Bingo Challenge, which includes new challenges from this year's partner, [Stroud Water Research Center](#). Click on a square for more information.

Complete five squares in a row, submit your results, and Xylem will donate \$10 to the Stroud Center. Are you able to complete the whole board? If so, you'll activate a \$100 donation!

To submit your results, scan the QR code or [click here](#) to upload a picture of your completed BINGO card by July 31st.

For questions contact xylemwatermark@xylem.com.

W	A	T	E	R
Research your own watershed and any issues that might be affecting it	Start a compost pile	Participate in an Invasive Species Removal Project	Plant a native species in partnership with a nonprofit or local park service	Watch Watershed Health & You webinar & explore the different tools in your region
Spend a week without using any disposable plastic bottles	Plant a tree	Go for a plog!	Do any of these activities with a colleague – in-person or virtually!	Start a rain garden
Watch Watershed Watching webinar & Take action on EnviroDIY	Use River Runner Global to drop a raindrop on your community & see where it ends up	FREE SPACE	Conduct a home water audit and make a change to conserve your water use	Participate in the Watershed Trivia Challenge
Donate to a nonprofit protecting fresh water, such as Stroud Water Research Center	Collect rainwater to use for watering plants	Participate in a local clean-up	Watch Watershed Wonders webinar and Deploy a LeafPack	Using what you've learned, take a friend or family member on a watershed exploration.
Sign the Clean Water Call for Change and take action on WaterHeroes.xylem.com	Use reusable bags on your next shopping trip	Test a local water source	Spread the word! Teach someone new about plogging	Participate in a Storm Drain labeling or clearing activity

For External Use- Challenge terms and conditions apply to non-Xylem employees
